

BIG BUSINESS MUST PAY \$267,260,000 MORE IN U. S. TAXES

Audit of Returns From Corporations Brings New Assessments.

WASHINGTON, May 7. ADDITIONAL taxes amounting to \$267,260,000 have been assessed against big corporations in the last nine months as a result of an audit of their tax returns. Internal Revenue Commissioner Williams has informed Congress in asking for \$1,500,000 to pay the expenses of this work.

He said the audit had not yet been brought up to date, indicating the possible recovery of additional sums.

BEST DENIES SLAYING GIRL.

Confessed After He Was Beaten by Police, He Testifies.

PONTIAC, Mich., May 7.—Amos Beck, on trial for the murder of Miss Vera Schneider, took the stand in his own behalf yesterday and testified that he never had seen the girl until he was asked by officers to look at her body at the scene of the crime.

Once during his story he broke down and wept. Describing his movements on the night of the tragedy, he said he spent the time until midnight at a movie and talking about the town. A short cut home led him past the scene of the murder, where officers stopped him.

After his arrest he said he denied guilt until the officers beat him, and then he made the confessions he later repudiated. After repudiating his confession he said an officer entered his cell and choked him.

FIRE IN SUBWAY STATION.

Sparks Cause Blast—Derailed Train Blocks Traffic.

A derailed train on the subway of the Brooklyn Rapid Transit Company, near the Halsey Street and Broadway station in Brooklyn, caused a half hour tie-up during the rush hour last night which necessitated calling out police reserves of the Eleventh and Clinton Street Stations to handle the crowds which jammed the Halsey and Canal Street and Municipal Building Stations.

A shoe in slipping from a dead rail to a live one at the end of the feeder line at Halsey Street caused sparks which set fire to the subway structure. An alarm was turned in, but the fire was extinguished by subway employees before the arrival of the train.

Trains crept along the tracks at low speed between 5:09 and 5:41 o'clock, and passengers at the Manhattan stations were given transfers to the elevated lines over the Brooklyn Bridge.

Steal Gold, Silver and Truck.
PROVIDENCE, May 7.—Gold and silver bars and silver wire valued at between \$3,000 and \$4,000 disappeared with a motor truck stolen here yesterday. The truck was left in Beverly Street while the driver was delivering goods. The truck and its contents belonged to D. Makepeace and Co., jewelers at Attleboro, Mass.

Remember
That Can?

Of course you do! The famous Marshall's Scotch Kipper Herring. The favorite in thousands of homes before the war. Absent four years because the war stopped importation.

And now back again! As good as ever. Seemingly better than ever to those who have had to go without them but remember the appetizing dishes they made. No kippered herrings can compare with Marshall's, the famous Scotch brand from the clean, deep waters of the North Sea. Universally used in this country for over thirty years.

Make the May Housecleaning thorough with MILTON

MILTON is just "MILTON." No other word describes it. MILTON is a combined germicide, antiseptic, sterilizer, deodorizer, stain-remover, bleach—and more; yet does not burn, stain, poison or leave an odor. MILTON is just "MILTON." Get the Booklet with Each Bottle.

MILTON is a boon to the housewife in housecleaning. Go through the whole house with it from garret to cellar. Add MILTON to all water used in cleaning. Sprinkle the MILTONIZED solution in dark, germ-breeding corners; lay the dust with it, before sweeping, and thus avoid spreading live germs about the house. MILTON makes the home fresh, sweet and hygienically clean.

Read below some of the many ways in which MILTON helps in housecleaning. It is a marvelous wartime product, that

Does 101 Things
and really does them

SOME OF MILTON'S MANY USES

MILTON cleans painted wood-work scientifically. Don't rub and scrub with gritty substances that take off the paint as well as the dirt. Use about a tablespoonful of MILTON in a tumbler of water; sop the finger marks and smudges with it; let it remain a few moments; then just wipe away the disfiguring marks with a wet cloth.

MILTON cleans stained and varnished woodwork and furniture and is economical, as it

should be greatly diluted before using. Stains in bath tubs, wash basins and other enameled or marble fixtures are quickly and easily removed with MILTON, without harming the enamel.

MILTON is also a wonderworker in cleaning tile and wooden floors without any scrubbing.

MILTON destroys bad smells—does not merely cover them up with another odor, for its own odor disappears quickly. It makes toilets, sinks, drains,

garbage pails clean, fresh and sanitary.

MILTON kills bed-bugs and insect life as well as germs in bedsteads, springs and woodwork. (See full directions in the booklet with each bottle.)

MILTON cleans brushes and combs perfectly; whitens the bristles and destroys germ life in them. It keeps tooth-brushes clean, sweet, white and disinfected, with no injury to the bristles.

MILTON quickly removes stains from white linen and cotton, without harm to the most delicate materials. It should not be used on silk, woolen or dyed goods. MILTON also bleaches a wonderful snowy white, and gives a delicate finish far superior to bluing.

MILTON removes the odor of stale tobacco and freshens the air of rooms. It kills certain vermin that infest pet animals.

MILTON IS ENTIRELY SAFE

In all of its many uses

No damage to household—adults, children, babies or household pets—can come from MILTON. It is not poisonous; it will not corrode or burn the hands or skin; it cannot take fire or explode. IT IS PERFECTLY SAFE TO HAVE ABOUT—yet is marvelously efficient in each of its many uses and superior to many preparations manufactured to perform any one of them.

MILTON differs from anything ever before known. It is just "MILTON." TRY IT—for any one of the uses mentioned above. Telephone NOW for a bottle of MILTON to your

DRUGGIST OR GROCER

ALEX D. SHAW & CO
12 Stone Street, N.Y.

When the housecleaning day is done, relieve mouth, throat and nose from dust and germs with a refreshing MILTON spray, and ease your tired feet with a good soak in a solution of MILTON—about two tablespoonfuls to each pint of water.
